

BASELIGHT 600MX RAIL

The Baselight MX series represents the worlds most advanced portable all-in-one area lighting system, and has been adapted for specific use within the rail industry.

95,000 lumens
Half a football pitch of light using just 620W and Dimmable to 20W.

Rapid deployment
Retractable, digital mast controlled by onboard computer.

Designed to be seen
White flashing lights and reflective material on each leg for easy night time visibility.

Ergonomically placed lifting handles
Strategically placed lifting handles to enable an easy 2 person lift.

Adjustable leg height
Adjustable height on each leg to provide stability on uneven ground.

Lifting eyes
Lifting eyes provide a secure and robust connection when lifting with machinery.

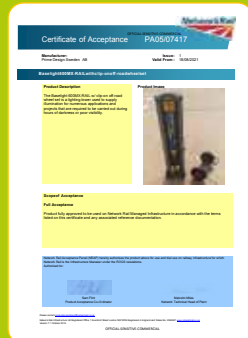

Supplied with clip-on off-road wheels
All-terrain wheels for easy manoeuvrability.

2 person lift
Reflective identification labels to ensure a 2 person lift.

Network Rail
Approval
Certificate:
PA05/07417
