SiteGrid X3

Lightweight 3kWh portable power unit

The SiteGrid X3 is a truly portable lightweight power system that can deliver up to 3.6kW at peak power. The unit is a compact and efficient product for delivering power to low energy consumption assets as well as charging tools and supporting remote working devices such as radios and comms equipment.

The lithium battery system within the unit is rated to >3000 cycles.

The safety system includes 6 layers of protection including overcharge/ discharge, overload, over temperature, short-circuit and under-voltage.

Features & Benefits

- Lightweight and portable
- Carry case with wheels
- Backpack version available
- Can be charged from grid, solar or DC input
- Multiple protection devices
- Zero noise and emissions
- Intelligent BMS management
- LED Display
- Recharge time only 5 hours
- Tool charging

Extremely Light
Only 25 kg

Fast Set Up
1 Minute

Adaptable
Solar or AC/DC
Charging
