Solartainer Versatile Self-contained solar hybrid power

Solartainer is the only adaptable and scalable solar hybrid power solution in the UK. Our hybrid generator range was developed to provide an off-grid power supply, integrating renewable power and storage with diesel, HVO, LPG or Glycerine power backup to reduce your environmental impact and carbon footprint. During daylight hours, the solar panels harvest energy and store it in a lithium-ion battery pack. The standby generator is activated only when the batteries are depleted. All units can be synchronised and are renewables ready to harness additional power from bolt-on solar sky frames, hydro turbines and wind turbines.

Features & Benefits

- Autonomous off-grid power supply
- Adaptive power source
- Lithium Ion battery storage with generator backup, including glycerine fuelled
- Reduced CO₂, NO_x, SO₂ & PM emissions
- Reduced generator runtime and service costs
- Available in single or three-phase configuration
- Can be used as a direct replacement for diesel generators up to 100kVA
- Remote energy management and live energy
- Option to synchronise to multiple sets

Reduced
CO₂ Emissions

Reduced
Fuel Costs

Reduced
Noise Pollution

Ancillaries

EMS Board

An intelligent distribution board that optimises power consumption and allows the complete control of power distribution on site, as well as monitoring and management.

[More info here](#)

Solar Skyframe

The additional renewable energy from Solar Skyframe will feed into your solar/ hybrid power solution, further reducing generator runtime, fuel use and carbon emissions.

[More info here](#)

Panorama

Panorama portal offers automated issue rectification, live commercial and environmental reports, and remote power control via smartphone or tablet.

[More info here](#)

Fuel Tanks

Our heavy-duty static and mobile fuel tanks manufactured to the highest standards. Think Hire's range provides a comprehensive solution to any fuel storage requirements.

[More info here](#)

Plugs and Leads

A full set of cables to ensure your on site generator is up and running smoothly. Our cables are available in standard lengths or customised sizes to meet your on-site requirements.
